Objective

Aspiring software developer seeking opportunities to contribute, grow, and add value as a dedicated team member.

Skills

- Programming Language: Python
- Frame works: React.js, Node.js, Express.js,HTML,CSS
- Databases: MongoDB, MySQL
- Version Control: Git, GitHub
- Technical Skills: Data Structures Algorithms, Data Analysis, Machine Learning, Web Scraping (Puppeteer, Cheerio)
- AI Development: Vibe Coding (AI-assisted development using ChatGPT, GitHub Copilot)

Projects

Finance Manager – Freelance Web App for Loan & EMI Tracking

- Developed a full-stack finance management platform for a client's loan and EMI tracking business.
- Automated EMI reminders via email to reduce late payments by 30%.
- Implemented role-based access and secure authentication for multiple user types.

College Attendance Management System (Ongoing)

- Role-based system allowing separate dashboards for admins, faculty, and students.
- JWT-secured login with session persistence and protected routes.
- Faculty can record, edit, and export attendance reports in real-time.

X (Twitter) Clone (Live Demo)

- Built a social media clone using React.js, Express.js, and MongoDB.
- Integrated Cloudinary for image uploads and used cookie-based session handling.
- Enabled users to post, delete, and update tweets with image support.

EV Charging Station Platform (Full Stack Project) (Live Demo)

- Designed responsive UI with filters for charger type, availability, and location-based search.
- Integrated Leaflet.js for interactive map view showing charger station pins.
- Enabled CRUD operations for adding, editing, and deleting charging stations with real-time updates.

PDF to XML Converter Tool (GitHub)

- Built a PDF to XML converter using React.js, Node.js, `pdf2json`, and `js2xmlparser`.
- Allowed users to preview and download converted XML files directly from the browser.

Frontend Projects with Live Demo

- **Referral Hub – Campaign and Promoter Management UI** (Live Demo)
- **Software License Selling Platform with OpenAI Integration** (Live Demo)

Education

College of Engineering Guindy, Anna University

- Master of Science in Integrated Information Technology (Oct 2022 – Present)

Participation

- Volunteer in NSS, Anna University
- Techofes Chess Tournament Runner-up
